

TONIGHT

This is our last night together

Maybe we are making love for the last time

Let your body burn

Give in to your feelings tonight, tonight

Let's play all the games, one by one

Let's sink in sin from top to toe

Hushh, don't speak, don't ask any questions

Discover my secrets tonight, tonight

Break off your chains and come

Let's soak in love together

Close your eyes

Let's fly in the skies breathlessly

The countdown has started

Time for separation is getting close

Let your body catch fire

Let's feel each moment to the fullest

Let's break down all the prohibitions

Let's drink love sip by sip tonight
