

Feedback about english courses A2 and B1

Teacher Marilena Beltramini

Student Gianna Mischis

I followed both ~~the two~~ courses A2 and B1 from 6th octobre 2021 to 24th february 2022 and I'm going to finish the B1 course in the afternoon, today.

I missed 3 lessons out of 20 and I'm quite satisfied if I consider the tasks connected to my job at school. (10/11/2021, 13/01/2022 and 3/2/2022).

I decided to follow the courses because I needed to resume the English language that ~~I hadn't been speaking~~ **I had not spoken and studied** ~~and studying~~ for several years and **that I feel** I lost.

I expected to encounter difficulties in comprehension and grammar rules. ~~At~~ At the same time I was almost sure to attend a very different way of teaching if compared with/to mine.

After 5 months of weekly lessons, on one side I'm really satisfied **because** I had the opportunity to listen **to** songs, to read and analyse poems, to discover their deep and unknown meaning, the life and artistic journey of the singers and writers, to speak **to** and to listen **to** the colleagues of both courses, **and** to improve **my knowledge of** the language. I appreciated the different method of teaching even if I feel difficult to adapt it ~~in/with/at~~ **to** business economics **classes**. On the other side, I regret ~~because~~ I did not dedicate enough time to do exercises, to reinforce what I learnt during the lessons and **mainly** because I didn't respect the task: I missed the chance.

I hope that other colleagues will have the same opportunity ~~that~~ I had.

Thank you dear teacher!
