

ADELE MINI - BIO

00:07

adele is just a universal pop star

00:10

british blue-eyed soul singer Adele

00:12

seemingly came from nowhere and quickly

00:15

changed music with the power of her

00:17

voice and the confidence of her image

00:19

adele is a refreshing change from all

00:21

the skinniness that was imposed on all

00:22

the pop divas in the media at that time

00:25

she's gorgeous and people have to accept

00:28

her because she's such a Titanic talent

00:29

Adele Laurie Blu Atkins was born on May

00:32

5th 1988 in North London England

00:35

inspired by singers Etta James and Ella

00:38

Fitzgerald Adele was only 19 when she

00:41

began recording her debut album Adele is

00:44

an incredible artist all around I think

00:48

her ability to find her voice within the

00:50

songs and the production she's developed

00:52

around her selfish is really inspiring

00:54

she's skyrocketed to fame after

00:57

appearing on Saturday Night Live in 2008

00:59

and saw her album 19 go from 40 to

01:03

number 1 on iTunes in less than 24 hours

01:06

19 quickly went double platinum and

01:09
earned Adele two Grammys Adele was
01:12
totally refreshing
01:13
onto the music scene when she came out
01:15
because it wasn't a spectacle it was
01:17
just this girl and her voice and that
01:21
was enough her follow-up album 21
01:24
surpassed all expectations selling more
01:27
than 25 million copies worldwide and
01:29
earned the singer six Grammys including
01:32
record of the year and song of the year
01:35
for Rolling in the deep' when Rolling in
01:37
the deep' came out it seemed like
01:38
everybody was singing it you could not
01:40
turn on an episode of American Idol the
01:42
voice or x-factor without hearing it you
01:44
couldn't go to your karaoke bar without
01:46
hearing it Adele isn't you know
01:48
covergirl beauty but she wasn't selling
01:51
that I mean these songs were very deep
01:53
and very emotive for a 21 year old girl
01:56
but that's the way music is I mean I
01:58
released I'll always love you at 21 what
02:00
did I know about loving somebody for the
02:02
end of all time and that's the way music
02:04

should be in 2013
02:06
Adele co-wrote and sang the theme from
02:09
the James Bond film Sky fall which won
02:12
her an Academy
02:12
Award for Best Original Song a lot of
02:15
Adele's great songs are about heartache
02:17
and being dumped and nobody does pain
02:19
and regret better than Adele but now
02:21
that she's happy I'm a little worried
02:22
for her career Adele was listed at
02:25
number five on VH1's 100 greatest women
02:28
in music and continues to break records
02:30
worldwide with her much imitated but
02:33
never equalled soulful voice I think
02:35
Adele is definitely here to stay she's
02:38
become an icon and she has devotion of
02:42
her fans and man the girl can sing.
