My sport

I practice latin dance since I was eight years old. At the beginning I do coreographic team with other 40 babies dancers. Then I do couple's latin dance at agonistic level with two different partners, first a boy who call Matteo and then one call Angelo. But this activity was very busy and now , for one years, I do syncro latin duo, same couple dance, but my partner is a girl!

I go to my dance's school three time a week and there are race once a month, in over Italy, specially in Veneto and in Emilia Romagna.

Last summer I went at international championship of latin dance, in Rimini and it was a very good experience.
