5.

- During the Industrial Revolution people develop new technologies and sources of power.
- One of the most important inventions of the Industrial Revolution was the steam engine.
- One of the negatives points of the agrarian revolutions is the improvements of the production of agrarian goods.
- The waterways became a very important element for the develop of the transports.
- Another negative fact that sign the Industrial Revolution was substitution of the enclosures for the open fields.

1.

One of the most important and known Italian inventor is Leonardo Da Vinci. In his honor in Italy there were built a lot of monuments, building statues in his hometown and to remember his European Parliament decided to dedicated to his most important paint "l'uomo di Vitruvio" a space into the money. But this is made for all the impotents people that left his sign, (obviously not the money!)

2.

- Samuel Crompton
- Matthew Boulton - Birmingham
- Abram Darby Colalbrookdale.
