

I attended 17 English lessons with MS. Marilena Beltramini, 10 A2 lessons and 7 B1 lessons.

I had already met Mrs. Beltramini during other courses for teachers, but never as an English teacher.

A few years ago at the end of a refresher course we went to eat something together ~~into~~ a restaurant and I was immediately attracted by her culture.

When I ~~know~~ **KNEW** that I could enroll in an English course and that the teacher was MS Beltramini, I immediately decided to enroll. I felt very lucky to take an English course with her. I ~~don't have aptitudes~~ **AM NOT PARTICULARLY INCLINED** for studying foreign languages, but I try. I have many difficulties in pronunciation and oral comprehension.

During my life, I have taken other English course**S**. I liked this course because during the two and a half hours, I never got bored and I always tried to understand everything the teacher taught. I liked the lessons because they were very varied and because we listened to beautiful songs and for the cultural insights **of the lesson**. Before enrolling I thought that I would not be able to concentrate ~~on~~ two and half hours **long**. ~~of English lessons~~. I was so afraid of having to participate in conversations in English. Fortunately, the teacher always had a lot of patience despite the nonsense I said. **I RARELY** intervened ~~little~~ in the conversation, but I always listened to everything. Now, while listening to **a N** English song I try to understand at least something.

Thank you MS Beltramini for your professionalism and patience. I hope to be able to attend another course with you.
