

MR BOUNDERBY ONLINE GAME ⇒ [Download](#)

The player, Mr. Bounderby, is expected to associate the specific economic term chosen to its correct meaning.

If he doesn't succeed he will undergo an earthquake and will have to try again.

If he succeeds he can move to a higher level of challenge.

Instructions:

- 1) unzip the file, double click on it
- 2) use the arrow to move and to jump
- 3) move the notes with the character in the red hole of the respective definition
- 4) if you get stuck click on reload button on the right bottom
- 5) win!

PS: to play the game you need winzip/winrar to extract the game and adobe flash player/shockwave player

<http://get.adobe.com/it/shockwave/>

<http://get.adobe.com/it/flashplayer/>

The game is optimized for 1280x** screens, so if you use flash player on full screen you have to click on "visualise" and then on "100%" to make it work properly ; if you use a browser like Internet Explorer you do not have to play on full screen, and you should stretch the windows until you see the words on focus.**
