

When Sally **1. GOES** (go) to college next month, she **2. WILL FIND** (find) everything a little strange at first. She'll probably be a bit lonely until she **3. MAKES** (make) a few friends. She **4. IS GOING** (go) to Oxford by train. It **5. LEAVES** (leave) at 12:00, so she should be there by 3:00. She **6. WILL STUDY** (study) economics, because she's always been interested in business. She **7. WILL HAVE** (have) lectures with the famous professor Edmond, who is the head of Department. I hope she **8. LIKES** him. She **9. IS HAVING** (have) a big party with all her friends before she goes. We've said that we'll visit her as soon as she **10. SETTLES** ... (settle) him.
