

Instructions for taking the ATC Placement Test

Please read the instructions below carefully before taking the test.

It is important for you to follow the guidelines below, so that your current level of English knowledge will be fairly assessed and place you in the correct class.

- You should spend no more than the given time on this test
- You should not use a dictionary
- You must do the test alone
- Choose one answer (A/B/C/D) and it in the panel beside the question
- If you are not certain of the answer, you should guess
- Remember to write / type your full name on the first page!

Please note: When you arrive in ATC you will have an interview with the Director of Studies or a teacher, who will assess your speaking & listening skills and give you a grade. If the grade from your placement test does not correspond with the grade of your placement test, you may be asked to do the placement test again, or you may be put into a different class.

Good luck!
