

SALS Teacher's Input

- [42i_mat_stili.htm](#)

The link provides a synthesis of the discussion concerning learning styles that together with the strategies one adopts are responsible for individual self-regulated learning processes provided the learner gradually acquires a reasonable level of metacognitive awareness.

[Sternberg e gli stili cognitivi.](#)

The link sums up the key concepts of Sternberg's research on learning styles

[Strategie di apprendimento linguistico - Language Learning Strategies](#)

The power point presentation provides an introduction to the concept of learning strategies with specific reference to the language learning ones. It also offers a classification of strategies and discusses them in their discrete forms.

Anna Uhl Chamot, [Issues in Language Learning Strategy Research and Teaching.](#)

The article is meant to provide teachers with an updated contribution about research on language learning strategies and, thanks to its author's [permission](#), it is now available also in the Italian language (my translation).

Useful resources for learning strategies may be found in attachment.
